

Specializing in electronic asset recycling, Key-cycle offers clients the security of knowing that their computer recycling is done safely, securely and in compliance with local, state and federal regulations. We are DEP and EPA certified.

With our zero-landfill policy, we demanufacture and recycle 100% of retired assets that we are unable to remarket. During the demanufacturing process, we remove any hazardous materials and ship them to specially audited North American processing partners. Keystone issues certificates of recycling, thereby greatly reducing any corporate legal exposure for its clients related to electronic asset disposal.

We can provide full downstream reporting on your assets, full accountability and we pride ourselves on doing what we say we will do.

*IT and computer data security and regulatory compliance by  
Keystone Technology Management LLC*

Other companies claim to erase sensitive information from your IT equipment using a variety of software programs. Secure-KEY guarantees your information is gone. We shred your hard drives, compact disks, back up tapes and any other media which your organization used to store data. In our secure facility, we have the capability to shred hundreds of drives each day, reducing your data to shards of metal and plastic that will never present a risk of exposure.

We also offer Blancco® security suite software based drive erasure, for clients looking to garner return on their hard drives. Blancco® is the leader in software based data security. Data destruction gives a device that's safe for second life applications such as donations, redeployment or even sale. Blancco® is available for pc's, laptops, servers and smart phones/PDA's.

Secure-KEY also offers online reporting, full audit reports and certificates of destruction to provide peace of mind. Secure-KEY provides organizations compliance with Gramm-Leach-Bliley, HIPAA and Sarbanes-Oxley regulations.

Be safe, be compliant, be secure with Secure-KEY.

*Asset recovery and revenue share programs by  
Keystone Technology Management LLC*

Keytek-ROI provides organizations with comprehensive, individually tailored asset redistribution plans to maximize your assets value. Whether we customize and revenue share program, or an outright purchase of your equipment, you know you will receive fair market value for your equipment.

Keystone's sales team experience and our database of resellers from across the country, guarantees top dollar for your IT equipment. With nearly 100 years of combined industry experience, you can be sure that we will maximize the value of your equipment.

We also offer employee buy back programs of refurbished equipment, certificate of asset disposal, national logistics solutions and the security of knowing that you are dealing with a company that has the expertise to be your single source IT solution provider.

Keytek-ROI provides you with the single source solution that delivers the optimized IT asset value you look for.
